# THE RETrans PORTAL
## DIGITAL AND DIRECT – OUR NEW PORTAL FOR DIGITAL ORDER TRANSMISSION AND COMMUNICATIONS

Rhenus
RETrans

## WHAT IS THE RETrans PORTAL?

The RETrans portal consists of two components. On the one hand there is the Zebraxx app for your truck driver, on the other hand there is an online portal for you as a contractor. Via the app, the driver receives a transport order and all information directly via his mobile device and can report the status of the transport order in real time. The confirmations as well as the corresponding documents and weights are transferred to the portal where you can also directly access this information.

**> WWW.RHENUS.GROUP**

## THESE ARE YOUR DRIVER'S BENEFITS WITH THE RETrans PORTAL:

Addresses and information on loading and unloading

Uncomplicated reporting of problems to our dispatch team

Easy status feedback on the order including loading and unloading weight

Documentation of weighing slips and accompanying documents via the camera of the mobile device

Comment function for the status confirmation

### HERE'S HOW YOU CAN GET THE APP ON YOUR DEVICES:

The app is available for free for Android devices under the name „Zebraxx" in the Google Playstore.

More details on how to configure the app are available upon request.

## THESE ARE YOUR BENEFITS WITH THE RETrans PORTAL

An overview of all your orders at a glance

Real-time status updates from the driver

Access to collected documents

Overview of reported weights
